TIPS & TRICKS

We Have Fold3!

www.casscolibrary.org/genealogy/databases

Thanks to Proposition L, the Cass County Public Library can now offer our patrons free access to Fold3 from the library or from the comfort of home!

Fold3 provides quick and easy access to over 500 million indexed and digitized military records; this includes service records, documents, photos, draft cards, and more for those who served. Library patrons can view, print, and download these records to use in their family research.

Also, users can now access and view any Fold3 records located in the relevant collections on *Ancestry Library Edition*, as well.

Users can filter their searches or browse record collections by conflict, place, branch of the military, and publication type. Fold3 is home to U.S. military records from the Revolutionary War to the Vietnam War, as well as those from various international conflicts. You'll also find a variety of select records from more recent conflicts in the Middle East, such as the Persian Gulf War and Afghanistan.
