Monday: 12 PM – 6 PM
Thursday: 12 PM – 6 PM
Friday: 10 AM – 12 PM, 1 PM – 5 PM
Saturday: 10 AM – 12 PM, 1 PM – 5 PM

TIPS & TRICKS

Records to Use for Tracing Black Sheep Ancestors

These are just a few of the records that can help track down your criminals, rascals, rogues, divorcees, prostitutes, bootleggers, and more.

City Directories
Use directories to follow your ancestors in the years between censuses. Track ancestors who may have regularly changed their name, but their address stayed the same.

School Yearbooks
Often contain a photo and may provide detailed information about their childhoods. You might also find their friends, siblings, or perhaps even a future partner in crime.

Newspaper Articles
You may find detailed obituaries as well as published reports of crimes, police blotters, court proceedings, fugitives, affairs, divorces, fines, runaway spouses, foreclosures, local gossip, and much more.

1880 Federal Census – The Defective, Dependent, and Delinquent Schedule
Not everyone included in this schedule of the Federal Census was a black sheep, but you may find lists here of imprisoned individuals and those who were confined to asylums and workhouses. Coverage and detail varies in these records. Institutions like prisons and county homes were also enumerated on state and federal censuses.
NEW AT THE GENEALOGY BRANCH

Research Quick Guides
www.casscolibrary.org/genealogy/guides

Fold3
Covers the basics of using the Search and Browse features and viewing the digitized images in the military record database.

RootsWeb
Provides tips for searching for and viewing family trees in their WorldConnect database as well as viewing archived features like mailing lists, hosted websites, and message boards.

DNA Testing for Genealogists
Covers basic genetics for genealogists, DNA test options, test providers, the limitations of testing, concerns, and more.

NEW ONLINE RESOURCE SPOTLIGHT

Record Collection: Missouri, U.S. Pre-World War II Adjutant General Enlistment Contracts, 1900-1941

Information contained here may include:
• Name
• Birthdate
• Residence
• Date and Place of Enlistment
• Name and Address of Nearest Relative
• Place of birth
• Citizenship Status
• Marital Status
• Number of Children
• Number of Dependents

TIPS & TRICKS CONT.

Records to Use for Tracing Black Sheep Ancestors

Court, Jail, & Prison Records
For example, you might find them in U.S. County Circuit Court records, or a Calendar of Prisoners from various place across the United Kingdom recording prisoners held after a trial in the Assizes or Quarter Sessions. They might also be found in local and county jail records. State Penitentiary prisoner records are available in some places.

In most states, divorce records are considered court records and are therefore kept by the relevant court.

Census Occupations
During years when State and Federal Censuses recorded occupations, you might find an ancestor enumerated there as a prostitute, or “works in smut shop,” a drunkard, a gambler, a harlot, or even as an inmate at a criminal or social institution.

Convict Transportation
Before 1776, British convicts, and sometimes their families, were transported to North America or the West Indies. After 1776, they were sent to Australia and Tasmania. Many of these records survive and can be found online.

Local Histories
Maybe instead of a criminal record or problems in court, your ancestor and their antics were simply notorious in their community. Their story may be recorded as a biological sketch in the area’s narrative history.
